Top 5 Questions Asked by Your Clients or Patients

What is the difference between Viviscal Professional and Viviscal Extra Strength?

It's a more efficacious line. Two tablets of Viviscal Professional supplements contain more AminoMar® than two tablets of Viviscal Extra Strength. In addition, Viviscal Professional contains more Biotin and Vitamin C. Unique to Viviscal Professional supplements, we added Apple Extract Powder (Procyanidin B-2), which favorably affects hair follicles during the growth phase of the hair growth cycle. Procyanidin B-2 has also been shown to increase the density and diameter of hair. And lastly, we have added L-Cystine and L-Methionine which are essential amino acids in the formation of hair and skin, offering a positive effect on hair growth.

How long should I take Viviscal Professional and should I stop once I complete the suggested regimen?

We recommend taking two Viviscal Professional hair growth supplements daily for a minimum of six months. In a healthy hair growth cycle, it takes time for the blood stream to deliver to the hair follicles the essential nutrients we ingest in our food or supplements. Replenishing these vitamins and nutrients can take up to three months to make a noticeable impact on our hair. If you choose to reduce the number of tablets you take, or stop taking the product completely, the benefit you have experienced will diminish over time as the hair growth cycle progresses. Equally, if you do not take it for the full six months, you are unlikely to experience the full benefits of the product.

Can anyone take Viviscal Professional?

Viviscal Professional is suitable for both women and men over the age of 18 of all ethnicities and hair types. Viviscal Professional is not suitable for individuals who are allergic to fish, shellfish, or women who may be pregnant or breastfeeding. Viviscal Professional does not contain dairy, soy, nuts or eggs.

How many tablets are in one box?

One box of Viviscal Professional contains 60 tablets, which is a 30-day supply and one box of 180 tablets is for 90-day supply. Take two tablets daily for a minimum of three to six months (one in the morning and one in the evening, taken with water after food).

How do I receive Viviscal Professional news and special promotions?

To receive Viviscal Professional news and special promotions, please register your account on www.cosmeticsquad.com. Once your account has been approved, you will be added to the newsletter list.
